Pole Docks Designer Series

Our Designer Series Pole Docks, the cornerstone of On the Water Designs, are hand crafted by experienced welders using the highest quality Canadian materials at our factory in Muskoka. Each section utilizes marine-grade aluminum framing and stainless steel fasteners to ensure a completely rust free design. Decking choices include Western Red Cedar, Solid PVC or Aluminum. A Designer Series Pole Dock from On the Water Designs makes a very durable and elegant centrepiece to any waterfront.

Designer Series Pole Docks come in a wide variety of standard sizes including 4', 6', 8' & 10' wide and 10', 15' & 20' long. Custom sizes and designs allow for additional flexibility where needed. All frames include decking support stringers every 16" allowing for almost any choice of decking both now and in the future. Our exclusive deck panel clips clamp decking securely to the frame giving peace of mind in rough conditions.
