Floating Docks Designer Series

Our Designer Series Floating Docks are hand crafted by experienced welders using the highest quality Canadian materials at our factory in Muskoka. Decking choices include Western Red Cedar, Solid PVC or Aluminum. Every Designer Series Floating Dock utilizes very reliable foam filled plastic PermaFloat dock floats. Our full range of float sizes allow us to choose the right float to fit your design. Most residential applications are designed for 25 lbs / SqFt, while docks typically holding more people are upgraded to 40 lbs / SqFt. Our standard designs float at 14" off the water, but we also have designs that can float at 18" to make it easier to step from your dock to a pontoon boat.
